S17.5 Entering the oval track and beginning of the test

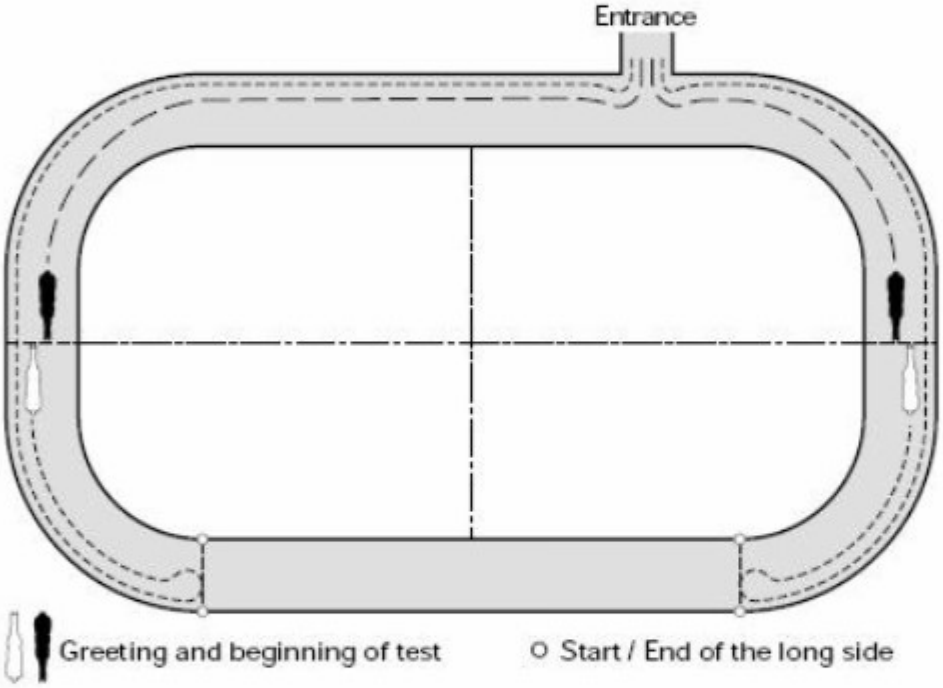
Entrance on the long sides - riders must proceed to the start point of their test (middle of the short side) without riding on the long side opposite the entrance of the track.

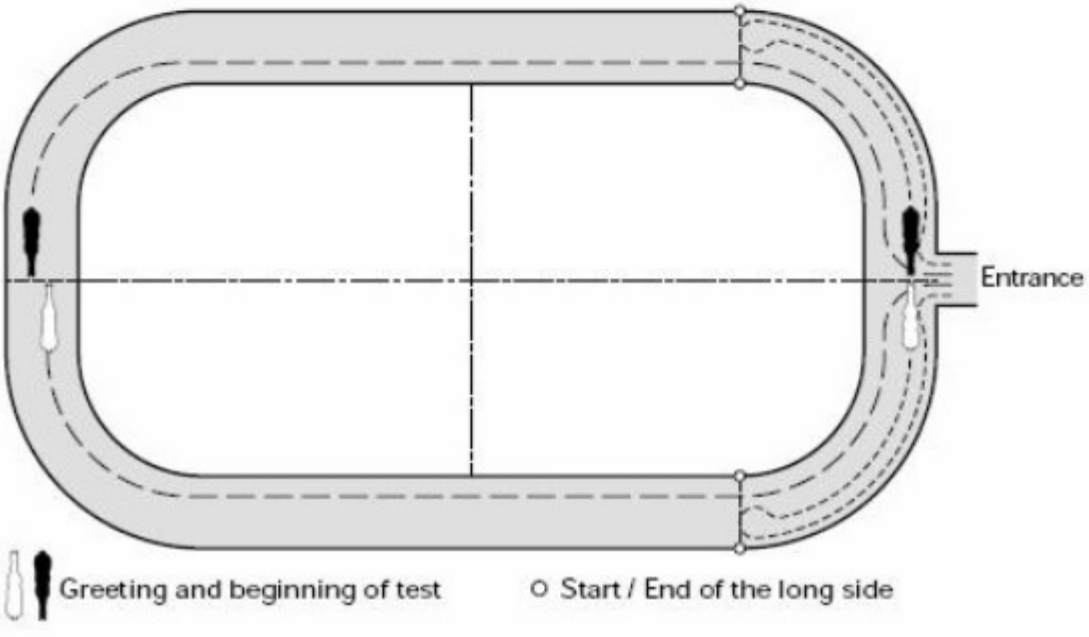
Entrance on the short sides (including corners) - riders who wish to start their test on the short side furthest from the entrance must proceed to the start point of their test (middle of the short side) along either long side and start immediately at that point (turning around there is not allowed).

Entrance on the short sides (including corners) - riders who wish to start their test on the short side closest to the entrance must proceed to the start point of their test (middle of the short side) without crossing the markers designating the beginning of either long side.

The rider must greet the judge visibly by nodding their head to indicate the start of the test.

Possibilities of entering and beginning the test with the entry being at the long side:





Possibilities of entering and beginning the test with the entry being at the short side:
